LEADERS			
Co-operative Effort.	103	British Steel Castings Research Association, The. By J. F. B. Jackson	183-186, 191
Longer Academic Training	53	British Steel Castings Research Association. First Annual General Meeting and Exhibition in York	62
Management Training.	205	British Welding Research Association, The. By Dr. K. Winterton	169-174
Post-Graduate Training.	1		
Research in Europe and U.S.A.	153		
"Selling" Science.	255		
ARTICLES			
A		C	
Alloying Addition, Beryllium as an. By L. David	236-238	Cable Sheathing Press, Aluminium. Direct Extrusion on to Cable Possible on New B.I.C.C. Plant at Prescott	16-18
Aluminium (99.8% Purity), The Creep Properties of, at 20-80° C. and at 250 and 450° C. By Dr. J. McKeown, R. Eborall and R. D. S. Lushey	13-15	Carbodrip Process	239-241
Aluminium Cable Sheathing Press, Direct Extrusion on to Cable Possible on New B.I.C.C. Plant at Prescott.	16-18	Carbon and Refractories Research. Morgan's New Laboratories at Battersea	263-267
Aluminium Centenary Congress and Exhibition. St. Claire Deville's Discovery Commemorated in Paris.	71-76	Casting Metals in Plaster Moulds. Superior Finish and Dimensional Accuracy	90
Aluminium Sheet and Strip Production, New T.I. Aluminium Plant in Operation at Resolven.	19-24	Certification Scheme for Zinc Alloy Die Castings	38
Anhydrite, Sulphuric Acid from.	283-284	Consett Iron Works, Developments at.	219-224
Anodic Protection, Corrosion Control by. By Dr. C. Edeleanu	113-116	Co-operative Research Activities Copper (Electrodeposited) and Zinc Alloy Die Castings, Diffusion between. By C. W. Roberts	207-212
Anodising and Plating, New Rectifier Equipment for.	287-288	Core Blowing and Mould Closing, Equipment for. Shell Moulding Developments	34-36
Appleby-Frodingham, "Seraphim" Plant now in Operation at.	104-112	Corrosion Control by Anodic Protection. By Dr. C. Edeleanu	113-116
Arc Furnace, 3-Ton.	288-289	Creep and Fracture of Metals at High Temperatures. Symposium at the National Physical Laboratory. Communicated by E. I. Brimelow	81-86
Argon Arc Welding, Mechanisation of.	213-218	Creep Properties of 99.8% Purity Aluminium at 20-80° C. and at 250 and 450° C. By Dr. J. McKeown, R. Eborall and R. D. S. Lushey	13-15
Argonaut Welding of Mild Steel Austenite-Martensite Transformation, The. A Survey of Work Carried out at Birmingham University in the Period 1947-1953	122-124	Cylinders (Seamless Steel Gas), The Safety Factor in the Design of. By S. E. Mitchell	87-89
B		D	
Bearings, Railway Rolling Stock. Lining by Pressure Casting Technique.	135-136	Deformation (Plastic) of Metals, The. Mechanical Engineering Research Laboratory Progress.	117-121
Beryllium as an Alloying Addition. By L. David	236-238	Descaling, Sodium Hydride.	167-168
Bessemer, Henry. An Inventive Genius of the Nineteenth Century By E. N. Simons	231-235	Design of Seamless Steel Gas Cylinders, The Safety Factor in the. By S. E. Mitchell	87-89
Blast Furnace Instrumentation. Kent Instruments at Appleby-Frodingham.	285-286	Die Casting (Zinc Alloy), Diffusion between Electrodeposited Copper and. By C. W. Roberts	207-212
B.N.F.M.R.A. Service to Industry. By B. Fullman and E. C. Mantle	187-191	Diffusion between Electrodeposited Copper and Zinc Alloy Die Castings. By C. W. Roberts	207-212
British Cast Iron Research Association, The. By Dr. J. G. Pearce, O.B.E.	180-182	Diffusion of Hydrogen in Titanium. By R. J. Wasilewski and G. L. Kehl.	225-230
British Ceramic Research Association, The. By Dr. A. E. Dodd	174-175	Dorman Long New Steelworks	55-62
British Iron and Steel Research Association, The.	176-180	Drilling, Ultrasonic Equipment Available for. Machining Hard Materials	137-138
British Non-Ferrous Metals Research Association Service to Industry. By B. Fullman and E. C. Mantle	187-191		
		E	
		Drip Feed Gas Carburising	239-241
		Dross, The Recovery of Zinc from. By A. G. Thomson	159-160
		Duplex Shell Moulding Machine, A.	276-277
		Duralumin, Unusual Use of. Britain's Largest Sand Yacht	121
		Dust Problems in Foundries	267
		F	
		Elastic, Plastic and Fracture Components—Micro-Indentation Hardness. By P. Grodzinski	125-131
		Electrodeposited Copper and Zinc Alloy Die Castings, Diffusion between. By C. W. Roberts	207-212
		Exaggerated Grain Growth in Extrusions. By Dr. D. H. Locke	268-275
		Extrusions, Exaggerated Grain Growth in. By Dr. D. H. Locke	269-275
		G	
		Fracture and Creep of Metal at High Temperatures. Symposium at the National Physical Laboratory. Communicated by E. I. Brimelow	81-86
		Fracture, Elastic and Plastic Components—Micro-Indentation Hardness By P. Grodzinski	125-131
		Fuels, Removal and Recovery of Sulphur from. Institute of Fuel Conference.	235
		Fulmer Research Institute. Royal Opening of New Engineering Laboratory	279-282
		Furnace Design, Standardisation in. New Multi-Purpose Types.	166-167
		H	
		Gas Carburising, Drip Feed	239-241
		Gas Cylinders (Seamless Steel), The Safety Factor in the Design of. By S. E. Mitchell	87-89
		Gas Turbines, Materials for.	131-134
		Germanium, The Production of, from Zinc Residues	277-278
		Grain Growth (Exaggerated) in Extrusions. By Dr. D. H. Locke	268-275
		Graphite (Spheroidal) Formation. By E. Ward	155-158
		I	
		Hard Materials, Machining. Ultrasonic Equipment Available for Drilling	137-138
		Hardness (Micro-Indentation) Its Elastic, Plastic and Fracture Components By P. Grodzinski	125-131
		Henry Bessemer. An Inventive Genius of the Nineteenth Century. By E. N. Simons	231-235
		High Frequency and Normal Equipment Surveyed—Induction Melting of Metals	25-28
		High Temperatures, Creep and Fracture of Metals at. Symposium at the National Physical Laboratory. Communicated by E. I. Brimelow	81-86
		Hot Rolling Mill, Planetary. Details of Electrical Equipment for Drive	32-33

	Page		Page		Page
Hydrogen, Diffusion of, in Titanium. By R. J. Wasilewski and G. L. Kehl	225-230	O		Standardisation in Furnace Design. New Multi-Purpose Types	166-167
I		O.E.E.C. Mission on Zinc and Light Metal Die Castings	38	Steelmaking, Oxygen in. Report of B.I.S.R.A. Conference . .	10-12
Induction Melting of Metals. Normal and High Frequency Equipment Surveyed	25-28	Oxygen in Steelmaking. Report of B.I.S.R.A. Conference . .	10-12	Steel (Seamless) Gas Cylinders, The Safety Factor in the Design of. By S. E. Mitchell . .	87-89
Institute of British Foundrymen Fifty-First Annual Conference in Glasgow	63-70	P		Steelworks, New Dorman Long . .	55-62
Institute of Fuel Conference. Removal and Recovery of Sulphur from Fuels	23	P.E.R.A. Mobile Demonstration Unit	112	Sulphuric Acid from Anhydrite . .	283-284
Institute of Physics Conference in Birmingham. Non-Destructive Testing Discussed . .	77-80	Planetary Hot Rolling Mill. Details of Electrical Equipment for Drive	32-33	Sulphur Removal and Recovery from Fuels. Institute of Fuel Conference	235
Institution of Metallurgists, Mr. W. Barr's Presidential Address	31-32	Plastic Deformation of Metals, The. Mechanical Engineering Research Laboratory Progress . .	117-121	Surface Tensions for Metals, An Estimation of Some Unknown. By Dr. J. W. Taylor	161-165
Iron and Steel Engineers Meeting at Newcastle, Developments at Consett Iron Works	219-224	Plastic, Elastic and Fracture Components—Micro-Indentation Hardness. By P. Grodzinski	125-131	T	
Iron Making Developments, United Steel Companies' . .	104-112	Plaster Moulds, Casting Metals in Plating and Anodising. New Rectifier Equipment for	287-288	Titanium, Diffusion of Hydrogen in. By R. J. Wasilewski and G. L. Kehl	225-230
L		Post-Graduate Metallurgical Training. Birmingham Course Now Leads to Master's Degree . .	37-38	U	
Lackenby Site, First Plant in Operation on. New Dorman-Long Steelworks	55-62	Pre-Packaging Technique, Development in	124	Ultrasonic Equipment Available for Drilling. (Machining Hard Materials)	137-138
Lining by Pressure Casting Technique. (Railway Rolling Stock Bearings)	135-136	Press, Aluminium Cable Sheathing. Direct Extrusion on to Cable Possible on New B.I.C.C. Plant at Prescott . .	16-18	United Steel Companies' Iron Making Developments	104-112
M		Pressure Casting Technique Lining by. Railway Rolling Stock Bearings	135-136	Welding (Argon Arc), Mechanisation of	213-218
Machining Hard Materials. Ultrasonic Equipment Available for Drilling	137-138	R		Welding (Argonaut) of Mild Steel Welding, The Metallurgy of. By Dr. W. I. Pumphrey	3-9
Material Handling Indication Diagrams	76	Railway Rolling Stock Bearings. Lining by Pressure Casting Technique	135-136	Z	
Mechanical Engineering Research Laboratory Progress . .	171-121	Recovery of Zinc from Dross, The. By A. G. Thomson	159-160	Z.A.D.C.A. Annual General Meeting. Certification Scheme and O.E.E.C. Mission Discussed . .	38
Mechanisation of Argon Arc Welding	213-218	Rectifier Equipment for Plating and Anodising, New	287-288	Zinc Alloy Die Castings, Certification Scheme for	38
Melting (Induction) of Metals. Normal and High Frequency Equipment Surveyed	25-28	Refractories and Carbon Research. Morgan's New Laboratories at Battersea	263-267	Zinc Alloy Die Castings, Diffusion between Electrodeposited Copper and. By C. W. Roberts . .	207-212
Metallurgical Training, Post-Graduate. Birmingham Course Now Leads to Master's Degree . .	37-38	Refractory Testing Foundry Extension	242	Zinc Residues, The Production of Germanium from	277-278
Metallurgy of Welding, The. By Dr. W. I. Pumphrey	3-9	Research Activities, Co-operative . .	169-191	Zinc, The Recovery of, from Dross. By A. G. Thomson . .	159-160
Metals, An Estimation of Some Unknown Surface Tensions for By Dr. J. W. Taylor	161-165	S		CORRESPONDENCE	
Metals, Induction Melting of. Normal and High Frequency Equipment Surveyed	25-28	Safety Factor in the Design of Seamless Steel Gas Cylinders. By S. E. Mitchell	87-89	"Drip Feed Gas Carburising. D. Atherley	267
Metals, The Plastic Deformation of. Mechanical Engineering Research Laboratory Progress . .	117-121	Sand Yacht, Britain's Largest. Unusual Use of Duralumin . .	121	"Presenting a Technical Paper". R. J. Brown	24
Micro-Indentation Hardness: Its Elastic, Plastic and Fracture Components By P. Grodzinski	125-131	Seamless Steel Gas Cylinders, The Safety Factor in the Design of. By S. E. Mitchell . .	87-89	"Presenting a Technical Paper". J. Ferdinand Kayser . .	89
Mould Closing and Core Blowing Equipment for, Shell Moulding Developments	34-36	"Seraphim" Plant now in Operation at Appleby-Frodingham	104-112	"Presenting a Technical Paper". G. W. Weeks	200
Moulds (Plaster), Casting Metals in	90	Sheet and Strip (Aluminium) Production. New T. I. Aluminium Plant in Operation at Resolven	19-24	CURRENT LITERATURE	
N		Shell Moulding Developments. Equipment for Core Blowing and Mould Closing	34-36	Reviews	
Nickel Alloy Fabrication, Twenty-Five Years of. Silver Jubilee of Zenith Works . .	257-262	Shell Moulding Machine, A. Duplex	276-277	"A.D.A. List of Films, Film Strips and Wall Charts". Aluminium Development Association	247
Nimonic Development, A New. Extruded Blade Sections with Cooling Passages	241-242	Siemens, Sir William. A Pioneer in Electricity and Regenerative Heating. By E. N. Simons	29-31	"A.D.A. List of Publications". Aluminium Development Association	247
Nimonic DS for Conveyor Belts	289	Sodium Hydride Descaling	167-168	"Aluminium in Building". The Aluminium Development Association	143
Non-Destructive Testing Discussed. Institute of Physics Conference in Birmingham . .	77-80	Spheroidal Graphite Formation. By E. Ward	155-158	"Balances, Weights and Precise Laboratory Weighing". Notes on Applied Science, No. 7. H.M. Stationery Office	247
Normal and High Frequency Equipment Surveyed		Springs, All Done by	116	"British Standards 1954 Yearbook". The British Standards Institution	143
Induction Melting of Metals . .	25-28			"B.S.I. Annual Report, 1953-54". British Standards Institution . .	247

RECENT DEVELOPMENTS IN MATERIALS, TOOLS AND EQUIPMENT

A.C. Vacuum Gauge, Naresco Equipment Corporation	246
Alphatron Vacuum Gauge (New), operating on A. C. current, Naresco Equipment Corpora- tion	246
Anti-Spatter Paint, New Welding. Arc Manufacturing Co., Ltd.	294
Automatic Arc Welding Elect- rode, New. Murex Welding Processes, Ltd.	245-246
Automatic Welding Blowpipe, British Industrial Gases, Ltd.	41-42
Back-Plunger Indicator, J. E. Baty & Co., Ltd.	246
"Coilex" (New Automatic Arc Welding Electrode), Murex Welding Processes, Ltd.	245-246
Cold Pressure Welding Tool, The General Electric Co., Ltd.	41
Duostat Printer, Kodak, Ltd.	293
Epoxide Resin, New. Leicester, Lovell & Co., Ltd.	141
Heavy Duty Spot Welder, Philips Electrical Ltd.	245
Hydraulic Press, 15 ton. Pilot Works, Ltd.	196
"Kodak" X-Ray Processing Unit Model 56, Kodak, Ltd.	42
Lead Sulphide Photocell, New. Mullard, Ltd.	42
Low-Hydrogen Electrodes, New. Murex Welding Processes, Ltd.	93
Melting Flux for Magnesium- Containing Light Alloys, Essex Aero, Ltd.	294
Melting Unit, Small. Wild-Bar- field Electric Furnaces, Ltd.	141
Photographic Drying Cabinet, Kodak, Ltd.	42
Prefired Ladle Liners, The Morgan Crucible Co., Ltd.	195
Pressure Transmitter, George Kent, Ltd.	93-94
Radiograph Processing Unit, Kodak, Ltd.	245
Recorder with New Features, Foxboro Yoxall, Ltd.	293-294
"Redux" in Film Form. Aero Research, Ltd.	195

Rolla-Bench. Shandon Scientific Co., Ltd.	293
Shell Mould Maker. Polygram Casting Co., Ltd.	141-142
S.I.G.M.A. Water-Cooled Gun. Quasi-Arc Co., Ltd.	246
Silicon Carbide Heating Elements, The Morgan Crucible Co., Ltd.	142
Spot Welder, Heavy Duty. Philips Electrical, Ltd.	245
Spraywelding, Metallisation, Ltd.	93
Tempomat Control Units, Philips Electrical, Ltd.	195-196
Tramp Iron Divertor Unit, Rapid Magnetic Machines, Ltd.	142
Univector Polarograph Unit, Cambridge Instrument Co., Ltd.	41

LABORATORY METHODS

Absorptiometric Determination of Silicon in Ferrous Materials. A Report by the Glasgow Absorptiometric Panel.	145-148
Aluminium Alloys, A Complexi- metric Method for the Deter- mination of Zinc in. By J. C. Sergeant	252-254
Aluminium Alloys, A Simple Anodising Process for Re- vealing the Grain Structure of By H. G. Cole and W. J. D. Brooks	97-100
Aluminium, A Method for the Electrolytic Etching of, for Microscopic Examination. By P. A. Raine, H. J. Ellis and L. W. Terry	45-46, 52
Aluminium Laboratories, Ltd., New Facilities for. Extensions at Banbury Completed	47-51
Analytical Standardisation in the Iron and Steel Industry. By J. O. Lay	197-200
Anodising Process (A Simple) for Revealing the Grain Structure of Aluminium Alloys. By H. G. Cole and W. J. D. Brooks	97-100
B.I.S.R.A.'s Eighth Chemists' Conference. Progress in Ana- lytical Techniques Discussed.	297-303
Chemist's Conference, B.I.S.R.A.'s Eighth. Progress in Analytical Techniques Discussed.	297-303
Compleximetric Method for the Determination of Zinc in Aluminium Alloys, A. By J. C. Sergeant	252-254
Copper-Base Alloys, Simul- taneous Determination of Cop- per, Iron, Lead and Zinc in. By J. Kinnunen and B. Wenner- strand	149-150
Copper, Iron, Lead and Zinc in Copper-Base Alloys, Simul- taneous Determination of. By J. Kinnunen and B. Wenner- strand	149-150
Crack Detector for Small Components, A Semi-Auto- matic Magnetic. By J. W. Walley	249-252
Diamond Abrasives, Practical Applications of a System of Metallographic Polishing Using. By L. E. Samuels and M. Hatherly	303-308
Electrolytic Etching of Aluminium for Microscopic Examination, A Method for the. By P. A. Raine, H. J. Ellis and L. W. Terry	45-46, 52

Etching (Electrolytic) of Aluminium for Microscopic Examination, A Method for the. By P. A. Raine, H. J. Ellis and L. W. Terry	45-46, 52
Ferrous Materials, The Absorptiometric Determination of Silicon in. A report by the Glasgow Absorptiometric Panel	145-148
Grain Structure of Aluminium Alloys, A Simple Anodising Process for Revealing the. By H. G. Cole and W. J. D. Brooks	97-100
Iron and Steel Industry, Analy- tical Standardisation in the. By J. O. Lay	197-200
Iron, Copper, Lead and Zinc in Copper Base Alloys, Simul- taneous Determination of. By J. Kinnunen and B. Wenner- strand	149-150
Lead, Zinc, Copper and Iron in Copper-Base Alloys, Simul- taneous Determination of. By J. Kinnunen and B. Wenner- strand	149-150
Magnetic Crack Detector (A Semi-Automatic) for Small Components. By J. W. Walley	249-252
Metallographic Polishing Using Diamond Abrasives, Practical Applications of a System of. By L. E. Samuels and M. Hatherly	303-308
Metallurgical Mounting Plastic (New), Some Experiences with a. By P. A. Lovett	201-203
Microscopic Examination, A Method for the Electrolytic Etching of Aluminium for. By P. A. Raine, H. J. Ellis and L. W. Terry	45-46, 52
Mounting Plastic, Some Ex- periences with a New Metal- lurgical. By P. A. Lovett	201-203
Physical Society Exhibition, Exhibits of Metallurgical In- terest at the.	51-52, 100-102, 150-152, 203-204
Plastic (Metallurgical Mounting) Some Experiences with a New. By P. A. Lovett	201-203
Polishing (Metallographic) Using Diamond Abrasives, Practical Applications of a System of. By L. E. Samuels and M. Hatherly	303-308
Semi-Automatic Magnetic Crack Detector for Small Com- ponents, A. By J. W. Walley	249-252
Silicon in Ferrous Materials, The Absorptiometric Determi- nation of. A Report by the Glas- gow Absorptiometric Panel	145-148
Simultaneous Determination of Copper, Iron, Lead and Zinc in Copper-Base Alloys. By J. Kin- nunen and B. Wennerstrand	149-150
Standardisation (Analytical) in the Iron and Steel Industry	197-200
Zinc, Copper, Iron and Lead in Copper-Base Alloys, Simul- taneous Determination of. By J. Kinnunen and B. Wenner- strand	149-150
Zinc in Aluminium Alloys, A Compleximetric Method for the Determination of. By J. C. Sergeant	252-254
